36 MONTH UNLIMITED MAINTENANCE

BENTLEY CONTINENTAL GT / GTC / FLYING SPUR

36 MONTHS NO WORRIES NO HASSLES

Applicable to Bentley Continental GT, GTC and Flying Spur Models, 2004 – 2018.

Includes three (3) annual scheduled maintenance services: two (2) regular maintenance and one (1) full tune-up over the life of the program + unlimited electrical diagnostics at any point during the program period.

SCHEDULED MAINTENANCE I

ANNUAL SERVICE - REGULAR MAINTENANCE

- Oil and filter change using premium, full synthetic oil (14 Qts)
- Replace air filter (set of two)
- Replace pollen filter (set of two)
- Replace integrated key fob batteries
- Check the condition of main and auxiliary batteries
- Check the tire pressure sensor batteries
- Check the vehicle diagnostic system for stored information
- Reset the service indicator light
- Check the condition and operation of all lights and horns
- Check the coolant level and frost protection
- Replenish windscreen washer reservoir
- Check the power steering system reservoir fluid level and top-off fluids as necessary
- Check the condition of the brake fluid
- Check the induction system for leaks
- Check the condition of the engine drive belt
- Check the condition, position and mounting of the exhaust system
- Check the braking system for leaks and damage
- Check the condition of the engine, gearbox, suspension mounts for leaks or damage
- Check the fuel system for leaks, damage and position
- Check the condition of all steering joints, couplings and gaiters
- Check the condition of the track rod and front axle ball joints
- Check the condition of the drive-shaft gaiters
- Check the cooling system for leaks
- Check the condition of the flexible break hoses and report if required
- Check the condition of the thickness of brake discs and pads
- Check the air suspension for leaks and damage
- Check the power steering system for leaks and condition
- Check condition of wiper blades and washer jet aim on the windscreen
- Check the tire pressures and adjust as necessary
- Check the condition and tread depth of the tires
- Remove foreign matter from all cooling matrices
- Check the bodywork for damage

SCHEDULED MAINTENANCE II

ANNUAL SERVICE - FULL TUNE-UP

- Oil and filter change using premium, full synthetic oil (14 Qts)
- Replace air filter (set of two)
- Replace pollen filter (set of two)
- Replace spark plugs (set of 12)
- Replace fuel filter
- Replace integrated key fob batteries
- Check the condition of main and auxiliary batteries
- Check the tire pressure sensor batteries
- Check the vehicle diagnostic system for stored information
- Reset the service indicator light
- Check the condition and operation of all lights and horns
- Check the coolant level and frost protection
- Replenish windscreen washer reservoir
- Check the power steering system reservoir fluid level and top-off fluids as necessary
- Check the condition of the brake fluid
- Check the induction system for leaks
- Check the condition of the engine drive belt
- Check the condition, position and mounting of the exhaust system
- Check the braking system for leaks and damage
- Check the condition of the engine, gearbox, suspension mounts for leaks or damage
- Check the fuel system for leaks, damage and position
- Check the condition of all steering joints, couplings and gaiters
- Check the condition of the track rod and front axle ball joints
- Check the condition of the drive-shaft gaiters
- Check the cooling system for leaks
- Check the condition of the flexible break hoses and report if required
- Check the condition of the thickness of brake discs and pads
- Check the air suspension for leaks and damage
- Check the power steering system for leaks and condition
- Check condition of wiper blades and washer jet aim on the windscreen
- Check the tire pressures and adjust as necessary
- Check the condition and tread depth of the tires
- Remove foreign matter from all cooling matrices
- Check the bodywork for damage

UNLIMITED DIAGNOSTICS

ANY TIME - ELECTRONIC DIAGNOSTICS

- Visual inspection of all vehicle systems; checking for leaks, wear-and-tear of belts, hoses and suspension parts
- Perform full electronic diagnostic scan; checking for stored information and printing related report
- Clearing stored, inactive codes
- Reset the check-engine indicator light
- Check the battery and alternator voltage
- Change battery, if under warranty
- Check fluid levels and top-off windscreen washer fluid, coolant and power steering fluid as necessary
- Check the tire pressures and adjust as necessary
- Remove foreign matter from all cooling matrices

PROGRAM DETAILS

APPLICABLE MODELS

Applicable only to Bentley Continental GT, GTC and Flying Spur Models, 2004 – 2018.

SCHEDULE OF SERVICE

Schedule of regular maintenance and tune-up may vary based on vehicle service history.

PRICING

Program cost is inclusive of parts, labor and materials. Does NOT include any applicable sales tax. Does not include coverage for additional repairs that may be required or identified during the inspection process. Program cost covers one vehicle (matching VIN) for 36 months beginning on the date package is purchased and paid.

TRANSFERABILITY

Unused maintenance is non-refundable and non-transferable to other vehicles. Should vehicle be sold to individual buyer (not dealer or broker), program is transferable to new owner through the life of the original contract.

Program applies to in-facility visits only. Advance appointments required.

36 MONTH MAINTENANCE
FOR ONLY

\$3,600⁰⁰ plus tax
